

Email template to engage local Maternal Health Centre

Email template to be used to reach out to local Maternal Health Centre:

Dear ####,

Dad's Group Inc is a not-for-profit community organisation committed to connecting new Dads, thereby improving men's health, preventing family violence and reducing isolation and suicide. We partner with sponsors, councils and community leaders to support individual Dads Groups based in different suburbs, through events that allow new fathers to take their children and meet with other new fathers in their area. These events typically take the shape of BBQs and local café meet ups, as a means of providing Fathers with a space to spend time with their children while gaining social support through the vehicle of sharing experiences.

Engaged Dads are more supportive partners to mothers, better role models for their children and more successful in their roles outside of their family. As the Leader of Dads Group ####, I would appreciate you distributing the attached flier to your Parent Group members to encourage new fathers to join us by simply signing up on Face Book or emailing me personally at ####.

Please be in touch in you have any queries and I look forward to your support.

Kind regards,

####.
